WASHINGTON CITY: TI FSDAY October 10, 1871. THE GREAT FIRE IN CHICAGO.

The Duty of Our Citizens,

The painful excitement in our city yesterday caused by the news of the terrible conflagration in Chicago was as intense as it was general, and

is unabated to-day. Long before the appearance on the streets of the EXTRA STAR, issued about noon yesterday, with the latest particulars of the progress of the fire, throngs of people gathered about THE STAR office to read the bulletins and discuss the great calamity to a sister city. By the light of to-day's dispatches we are enarendered homeless. Most of the buildings de-

bled to state that the reports of yesterday were not much exaggerated. A very large part of the business portion of the city is in ashes, and it is estimated that at least 150,000 people have been stroyed were massive structures of stone and brick. Among them was the "fire-proof" building of the Tribune, by far the finest newspaper office in the West, and one of the finest in the world. It was at first reported that it had escaped destruction, but last night's dispatches state that it, too, was engulphed in rain with all of the other buildings in its vicinity. Every newspaper and telegraph office, and even the railroad depots, are involved in the general destruction. The effect of such a disaster to a great business center like Chicago is not confined to the neighborhood of the city itself. It is already felt in the agitation of the stock and grain market, and the depreciation of Western railroad stock, and the failure to meet obligations on the part of large dealers, which will seriously damage business in many parts of the country. In many of its features the Chicago calamity has never been exceeded in any part of the world; even by the burning of Moscow or the great fire in London in 1666. The people of Chicago have always been lamous for their enterprise. The progress of the city within the last decade has no parallel in the history of the country. In 1860, with but 109,260 inhabitants, she ranked as the ninth city in population in the Union, whereas she is now the

We are rejoiced to see that the whole country is responding nobly and generously to the appea's for aid for the sufferers. All of the great cities have taken action, affording another proof of the liberality of our people. Large sums have already been raised and forwarded to the mayor of Chicago, and the military branch of the government, under the direction of the President, tress. When the fact is remembered that over one hundred thousand people have been reduced to beggary by this great disaster, it will be seen that the most generous benefactions will come far short of fully relieving the necessities. No one therefore should withhold his contribution, however small it may be, for all of the funds raised can be made available in the proper di-

The feeling among all classes of the citizens of the District of Columbia is one of deep sympathy, which, we are glad to announce, will take a practical snape at the mass meeting called by acting Governor Stanton, at Metzerott Hall, this evening, by his proclamation published elsewhere in our columns. We trust there will be a general turnout of our people at this meeting, and that every one present will contribute somethin g-Not only that, but action must be taken looking to an appropriation of at least \$50,000 by the government of the District of Columbia. It is due to ourselves and to a suffering sister city, that this should be done The case is one which admits of no delay. Aid is needed now, and it should be forthcoming at once. Our citizens should not be one whit behand their brethren of other cities. We believe they will not be, and that the result will demonstrate that the capital of this great nation is deficient neither in sympathy nor generocity when appealed to by such an appalling calamity as that which has overtaken the enterprising city

The latest mails from Europe throw but little additional light on the relations of the great powers to each other. Regarding the issues of the conferences of the Imperial Chancellors of Germany and the Austre-Hungarian Empire, it is reiterated that the cordial character of the second meeting of the Emperors at Salzburg confirms the supposition that the discussions of Prince Bismark and Count Buest have had the nesult desired; that their exchange of ideas has led to a complete understanding and perfect sutente cordiale between the German and Austro-Hungarian governments and that, though no treaties have been concluded, the two empires are to all intents and purposes united against any Power endangering the European peace-meaning Russia. In which connection it is suggested Now 70,000,000 Germans stand vis-a-vis to 40,000,000 Russians. This seeming paradox is thus explained: 27,000,000 Prussians and 33,000,-660 Austrians make, altogether, 70,000,000; while according to a pamphlet recently published at Breslau, there never has existed more than 49,000,000 Russians, the remaining 30,000,000 subjects of Emperor Alexander being Germans, Poles, and other alien nationalities. France would however help to equalize matters. A I aris correspondent says: "The French government and people have again been turning their eyes toward Russia, and the papers have been announcing an approaching interview between M. Thiers and Prince Gortschakoff, and now and then lugging England into the alliance. The President of the Republic entertained great hopes that the ambassador he dispatched to St. Petersburg would, owing to his antecedents, be able to effect something more than a good

The New York Tribune says that the argument of the supporters of hanging is "that A should be hung for killing B, in order that C may be deterred from killing D-a piece of reasoning which up to this time we have never been able fully to comprehend." Perhaps the Tribune would comprehend it better if put in this way: A should be hung for killing B in order that he may not go on killing C, D and E, and all the rest of the alphabet. The truth about the matter is that very few people would favor capital punishment it they were certain that a sentence of imprisonment for life, for murder, meant exactly that, and not a sentence of imprisonment until influential friends of the murdeter, or well-meaning but mistaken philanthropists are able to obtain a pardon. The court fool was not far wrong who told the king that a certain murderer accused of killing two persons was only guilty of killing one. "You," said he to the king, "killed the other;" meaning that the ruler's mistaken leniency in pardoning the first crime was the cause of the so and.

Our workingmen still manage to keep in the advance in all movements looking to the bettering of the condition of the laboring classes While New York workmen are demanding the enforcement of the law reducing the hours of labor to eight per day, English workmen are on strike for nine hours per day; and the Belgian workmen are striking for ten hours. At Ghent three hundred men have have turned out in favor of the ten-hour movement; but they go further than their New York brothers in this. that they insist upon being allowed not only to fix the hours of labor, but also, the rate of wages, which is certainly a very comprehensive

Besides the elections for State officers in Ohio, Pennsylvania and Iowa to-day, county officers will be elected in Indiana and Nebraska. THE JEESEY EARTHQUAKE yesterday was

caused by the explosion of 200 kegs of powder being carried from Dupont's works. large drove of wolves lately made their appearance in the subarbs of Chicago." The Telegraph made a mistake; the "wolves" have been and are still about the New York City Hall. They say that Kaiser Wm. was deeply in

love with Sontag, once upon a time.

No. 4. V. M. C. A. BUILDING. Chesapeakes and Ohios - Five-Twenties -Central Pacifies.

BANKING OFFICE OF FISK & HATCH.

No. 5 Nassau Street, New York,

Of the FIFTEEN MILLION CHESAPEAKE and OHIO SIX PER CENT. LOAN, but about \$4,500,000 remain unsold, and this remainder will be taken up rapidly. The five years' option having expired on all series of FIVE TWENTY BONDS, except 1867s and 1868s, they are liable to be called in for payment. The redempion of 100 millions FIVE-TWENTIES in coin, and the purchases by the Government during the ensuing four months, with the premium thereon, will release about 150 millions of invested capital, independently of dividend and interest payments, the greater part

of which must must seek reinvestment. THE CHESAPEAKE AND OHIO SIXES ave absolutely 30 years to run; are especially de

20 PER CENT. LESS THAN FIVE TWENTIES, 25 PER CENT. LESS THAN SIXES OF 1881, and are equally sure to be paid principal and interest n gold coin. Their amount is limited by the Trust Deed to \$15,000,000. Price (at present) 93 and accrued interest, that is, with coupon attached, payable Nov. 1.

\$1,000 Chesapeake and Ohio Bond costs to-day \$ 954.16. \$100 Chesapeake and Ohio Bond costs to-day

\$100 Chesapeake and Ohio Bond costs to-day 895.42. Only a small amount of the latter denominations

remains, and no more can be made. Bonds are in coupon or registered form, same as Five-twenties. This debt is created by the Chesapeake and Ohio Railroad Company in order more speedily and effectually to extend and complete the main line of their Road to the Ohio river. This work-THE MOST IMPORTANT INTERNAL IMPROVEMENT NOW PROGRESSING IN THE COUNTRY-is rapidly approaching completion. It will establish another and superior line of communication between the Ohio and Mississippi valleys and the eastern cities; bringing ten millions of people, mainly producers, nearer to the centers of consumption in the Eastern States, and nearer to the political and commercial capitals of their country. Such is the commanding importance of this Trunk Line that the larger cities of the West are projecting feeders to connect with it, so as to avail themselves of its unequaled facilities as soon as it is completed. Large tracts of valuable coal and iron lands along its route are passing into the hands of practical miners and iron manufacturers; a large city is springing up at the western terminus, the head of reliable navigation on the Ohio, where it intersects 12,000 miles of river transit, and will soon be in connection with 20,000 miles of railroad carriage.

as safe for investment as Government bonds. Their amount, fixed by act of Congress at \$25,835,000, is secured by property worth four times their value; they can only be bought in the open market, and are becoming scarcer in consequence of their gradual absorption by investors here and in Europe; they PRINCIPAL MONEY-CENTERS, and have still twenty-four years to run; the earnings of the road are steadily increasing, and will probably reach \$10,000,000 for the current year, affording a handsome surplus after payment of expenses and interest. Present price, 101% to 102.

When the Chesapeake and Ohio Railroad is completed, in 1872, and the Bonds are dealt in at the Stock Exchanges of the world, we have no doubt they will be equally popular with the Central Pacifics. Both principal and interest of the CENTRAL PACIFIC and CHESAPEAKE AND OHIO BONDS are specifically payable in gold coin in New York: the interest on the former being paid January and July, and of the latter, May and November, corresponding with the two classes of Five-twenties.

We recommend either of taem to our friends and customers with the SAME CONFIDENCE THAT WE DID THE FIVE-TWENTY BONDS, when we were selling millions of them for the United States We buy and sell FIVE TWENTIES, TEN-

FORTIES, EIG - TY-ONES, and CENTRAL or WESTERN PACIFICS, or receive them in payment for CHESAPEAKE AND OHIO BONDS at their current market price. Orders for Chesapeake and Ohio Bonds, accompanied with Drafts or Checks, may be forwarded to us by mail. Bonds or money may be forwarded by any responsible Express Company at our expease,

and the Chesapeake and Obio Bonds, in exchange, will be sent by return Express, charges paid. FISK & HATCH. P. S .- Accounts of Banks, Bankers and others received, on which we allow Four per Cent interest. Certificates of deposirs issued and collections made n all parts of the Union.

HABVEY FISK. A. S. HATCH. oc 3-tu.th.lm
